

# CRANBROOK COMMUNITY FOREST SOCIETY

The Cranbrook Community Forest Society (CCFS) is a registered, non-profit established in 2000 by volunteers who wished to become actively involved in the protection and enhancement of the Cranbrook Community Forest (CCF). The Society generates funds to carry out and support projects approved by the provincial government.

Work is completed under their supervision in accordance with the Management Agreement between the Society and the Province. The Society also works to raise public awareness and support for maintaining the integrity of the CCF as a valuable educational and recreational asset for the community of Cranbrook. The CCF covers 2000 hectares of Crown land immediately located east of the city limits to the west end of Isadore Canyon, and the Eager Hill area north of Highway 3. It is protected as an Interpretive Forest/Recreation Area for the community to enjoy.
